Perfomance & Applications

Product Specifications:

- ***Two Stage Booster Pump***
- ***Hydraulic pressure up to 10,000 psi***
- ***Gas powered up to 800 psi from interchangeable vessels or tanks.***
- ***First stage 2 GPM @ 3000 psi, volume per stroke 7.0 in^3***
- ***Second stage .65 GPM @ 10 kpsi, volume per stroke 3.0 in^3***
- ***Can be used under water***
- ***Can be used with interchangeable 10kpsi hydraulic tools (i.e. spreaders, cutters, crimpers, jacks, clamps, etc.)***

Product Applications:

- ***Emergency rescue (First Responder)***
- ***Door Breaching (Law enforcement, Military, First Responder)***
- ***Construction, Industrial (lifting, pressing, and cutting)***
- ***Electrical and Plumbing (crimping, and cutting)***
- ***Automotive repair (pressing and spreading)***
- ***Home building (on site truss plate press)***
